

# Product Case History

## Transpacific Industries

### PROJECT DESCRIPTION:

Transpacific Industries Group Ltd is one of the leading Australasian providers of integrated total waste management solutions with expertise in liquid, hazardous and solid waste management and the industrial cleaning business. On taking delivery of another tanker, Transpacific Industries contracted D & A Machinery Restorers to supply a finish that would show the true emphasis of the group - quality.

D & A Machinery using Carboline Coatings achieved this, and Transpacific Industries were very satisfied when the refurbished tanker rolled in with a finish of Multi-Gard GP 33<sup>AU</sup> and Multi-Gard GP 48<sup>AU</sup>.
